listing Description

Great boat with twin v8s and joystick controls at the helm that makes docking a breeze! Covers choppy water with ease and has a high freeboard for smooth dry ride. Gerat sound system, refrigerator in rear seating area, bar and vacuflush head below the closed bow. This boat also has captains call which means you can open up straight pipe exhaust when you want the twin v8s to really scream! The price point reflects the boat needing some refinish work but is water ready for this season! call or email for more info!
