listing Description

Great way to get into a 30' stancraft with twin V8 merc engines and joystick controls at a great price. The boat could use some shine coats for refinish to give it that new look but the upholstery is great and its mechanically and electrically sound!

Drawer fridge, walk through bar storage area below deck. Great stereo with two subs and 10 speakers. Boat is water ready and does not need finish work to use this season. If you wanted us to work a refinish price into the sale we can do that as well!

**This boat is being sold on consignment, StanCraft does not own this Vessel.
